

Create a simple cloud software application for Flight Reservation System using, any Cloud Service Provider to demonstrate SaaS include the necessary fields. such as one-way, round trip, From, to, Departure, Departure, Travelers & Class, Fare Type, International and Domestic Flights etc.

The screenshot shows a web browser with the URL `creatorapp.zoho.in/shaikimrans1235.sse_saveetha/fly/#Form:User_Details`. The application is titled "FLY Fly....." and has a sidebar menu with "User_Details" selected. The main form, titled "User_Details", contains the following fields: "User_ID" (text input), "Password" (password input), "Phone" (text input with a dropdown for country code set to "+91" and a value of "81234 56789"), and "Email" (text input with an email icon). At the bottom of the form are "Submit" and "Reset" buttons. The browser's top bar shows a trial expiration of 15 days.

The screenshot shows the same Zoho Creator application with the URL `creatorapp.zoho.in/shaikimrans1235.sse_saveetha/fly/#Form:Reserve_a_ticket`. The sidebar menu has "Reserve_a_ticket" selected. The main form, titled "Reserve_a_ticket", contains the following fields: "Departure date" (calendar icon), "From" (text input), "To" (text input), "Select price range" (dropdown menu with "-Select-" selected), and "Select class" (dropdown menu with "-Select-" selected). At the bottom of the form are "Submit" and "Reset" buttons. The browser's top bar shows a trial expiration of 15 days.
